Hi Jeff-

I apologize for the vague vm I just left you.

Please see below. I (tried to) set up a meeting with representatives from the forestry, stormwater, and ag sectors regarding re-vamping and moving forward with PA's BMP verification program. Jill and Matt could not attend, which leaves us with the stormwater and forestry folks. I'm still waiting on some responses and just circled back to it today to send a follow up email.

I also apologize for your late invitation- it's not that you were an afterthought. We planned this before our meeting with EPA on the subject.

Please let me know if you can make it!

Dear all-

As part of the Phase 3 WIP planning process, we'd like to consider the most effective ways to track and verify the practices identified in the WIP. The outcome of this may result in some significant changes to our BMP Verification Program; which, to be honest, we are struggling to get off the ground. With this in mind, we could use your help.

We are thinking about convening separate meetings, by sector, to include those entities that can help with the implementation of a Verification Program. The goal of these sector-specific meetings would be to go through the EPA Program and Protocols to consider how we get this done in the most effective and efficient manner. But FIRST- We'd like to meet with you all to plan this effort, to include agenda setting for the sector-specific meetings, the list of invitees, and the process moving forward to complete a revised Verification Program that merges with the timelines and milestones for implementation in the WIP.

We are hoping to kick this off on **Friday, April 27<sup>th</sup>**. I know we've all got a lot of meetings- does this date suit everyone? DEP can host the meeting at SCRO- we've got the Susquehanna Room reserved- or would be willing to travel to another place of consensus.

Please respond with your availability and location preference by Tuesday, March 20. Once we have a firm date and time, we will follow up with a more formal agenda and other materials, etc. to ensure the meeting is productive.

Thank you!
